CLOSING SESSION.

Election of Officers of the Great Council of the Red Men—Work of the Council Concluded.

The Great Chiefs of the Red Men gathered in Council, yesterday at 10 a. m. The principal topic before them, and one that caused a hot debate, was induced by a resolution offered by Past Great Sachem U. H. Hester, of Van Wert, to the effect that the Tribal Councils be held in the third, or Chief's degree, so that members would be forced to take all the degrees before they could attend the lodge meetings, the same as in Odd Fellowship. It is a question that has been up in the Councils for several years, but has always met with strong opposition. At this meeting the champions for progress triumphed, and the State Representative to the Supreme Great Council, Thos. J. Irwin, was instructed to bring it before that body for their approval, before it can be carried into effect.

At the afternoon session the official vote of the past sachems was counted, and the following officers were declared elected as great council for the ensuing year: Great Sachem—George W. Carey, of Lebanon. Great Junior Sachem—E. T. Pohlmeyer, of Dayton. Great Chief of Records—U. H. Hester, of Van Wert. Great Keeper of Wampum—August Knick, of Columbus. Great Prophet—John Van Ostran, of Wooster. Great Sannup—Enos Pierson, of Wooster. Great Meshinerva—Paul Weiss, of Xenia. Great Guard of Wicwam—J. G. Magg, of Circleville. Great Guard of Forest—John Timm, of Toledo.

Trustees—Samuel Ross, Columbus; Jno. G. Snyder, Chillicothe; H. M. Ennis, Columbus. Board of Control—For one year, C. W. Bryson, Columbus; two years, Andrew Volk, Columbus; three years, U. H. Hester, Van Wert. The session just closed was very harmonious, the business was put through with dispatch, the members enjoyed their stay in our city, and the great warriors left for their various hunting grounds, feeling that the brothers of Buck Creek and Lagonda tribes were good entertainers, that the Red Men and the pale faces must be friends, and that the order never had a better showing of prospects, than for the year to come.

Most of the visitors left on the evening train, and the Great Council is a thing of the past.

COUNCIL OF ADMINISTRATION.

Meeting of the G. A. R. Dignitaries Today at Department Headquarters.

The council of administration G. A. R. department of Ohio, met this (Thursday) forenoon at 10 o'clock at department headquarters. There were present Colonel D. C. Putnam, department commander, city; J. W. Byron, junior vice commander, of Dayton; Colonel James E. Stewart, adjutant general, city; Ira W. Wallace, quartermaster general, city; Chas. E. Howell, inspector, Dayton; John W. Chapin, judge advocate, John T. Maxwell, chief muster, Cincinnati; and all of the staff of the department commander. Theodore W. Burke, department chaplain, is to deliver the decoration day address at Cincinnati, and is now in the southern part of the State, and Senator Lee C. H. Jones, is attending the dedication of a monument at New Philadelphia. Consequently neither he could be present. The following members of the Council of Administration, proper, were also in attendance: W. S. Harlan, of Zanesville; James Barnett, Cleveland; F. S. Penfield, city; L. H. Williams, Ripley and C. H. Wentzel, Cincinnati.

The distinguished body took dinner at the Arcade with Past Department Commander, Gen. J. Warren Keifer, as special guest. Most of the business accomplished by the council today related to the jurisdiction of the order, and is of no general interest. The place of the next semi-annual encampment was left to a special committee, of which Department Commander Putnam is chairman. The department commander was authorized to direct the state adjutant, with previous approval of the council, the number of procuring blanks for membership dues and deaths was left to a special committee consisting of Messrs. Stewart, Burke and Penfield. At the hour of going to press the council is still in session.

Notable Marriage in Xenia.

A notable wedding occurred in Xenia yesterday afternoon, it being the marriage of Miss Clara Munger, eldest daughter of Judge E. H. Munger, to Rev. Joseph Little, of Albany, N. Y., at the elegant residence of the bride's parents on north King avenue, Rev. James Lea, of Xenia, performing the ceremony.

Miss Munger is one of Xenia's most charming and accomplished young ladies, and is well known and highly esteemed by friends in this city. Miss Munger returned only a few months ago from Germany, where she studied music under the able tutelage of the famous composer, and was a member of the orchestra.

Shoes Stolen.

On Tuesday afternoon two fellows, one short and slender and the other tall and large, snatched four pairs of shoes that were hanging in front of the store of Evans, Kuntzman & Co., 11 south Market street, and ran with them. They separated, each taking a pair of the shoes. Mr. Evans, who was alone in the store, pursued the tall fellow a short distance but was unable to leave the store very long and had, therefore, to discontinue the pursuit. The thieves made good their escape and have not yet been captured. They are not known. The shoes stolen were valued at \$2.50 per pair, the aggregate value being \$10. The police are working on the case.

Stable Burned.

SPECIAL TO THE REPUBLIC.
SOUTH CHARLESTON, O., May 19.—A stable belonging to Mr. James P. McFarland was totally destroyed by fire at noon today. The contents were also burned. Loss about \$800.

Strike Fails.

PITTSBURG, May 19.—The strike of knobbyers and puddlers at W. D. Wood's mill, McKeesport, was broken by the men returning to work last night. The strike has lasted ten weeks and resulted in the failure of the employees to establish an Amalgamated association lodge at this mill.

Slave Factory Closes In.

ST. LOUIS, Mo., May 19.—Benjamin F. Horn, proprietor of the East St. Louis slave factory, yesterday made an assignment. Assets, \$95,000; liabilities, \$58,000. John W. Gates, vice president of the Pittsburg wire company, is the assignee.

A Compromise Effected.

BUFFALO, May 19.—Strikers at Newman's and Akron cement works returned to work this morning. An advance of 25 cents per day was demanded, but a compromise was made on granting 12 1/2 cents.

A Card from D. E. Smith.

I wish to state to the public that I am not and never have been opposed to any enterprise that is for the advancement of my race and as for my opposing the districting of the Pleasant street building, I have never opposed it, but wish to see it maintained as a district school, and the present corps of teachers elected on account of their ability and not dismissed on account of their complexion.

D. E. SMITH.

STICKS AND STONES.

Orangemen Mob Editor O'Brien and Party in Toronto—Belfast Over Again.

They Are Greeted with Showers of Bricks and Boulders—A New York Reporter Hurt—The Police Indifferent—Thrilling Scene.

TORONTO, May 19. At 8:30 o'clock last night President J. A. Mulholland of the local branch of the National League called at the hotel and asked Mr. O'Brien to go out and have a walk. D. P. Cahill, Dennis Kilbride, the evicted tenant, and J. W. Mall, special correspondent of the New York Tribune, were present and suggested that it would not be prudent to venture out, as darkness had fallen and a crowd of about 300 rowdies had gathered around the hotel, hissing, hooting and growling. Mr. O'Brien, however, persisted in going. "I have a right to go out," he said in a determined manner, "and I will go," and he did so, the gentlemen before mentioned accompanying him a few steps leading from the main entrance of the Rossin house on York street to the sidewalk. For more than two minutes neither Mr. O'Brien nor his companions could step from the door. The crowd grew in number against the door, and the police, who were on duty, were unable to get near the door. Mr. O'Brien and his party were then forced to go out, and they did so, the gentlemen before mentioned accompanying him a few steps leading from the main entrance of the Rossin house on York street to the sidewalk. For more than two minutes neither Mr. O'Brien nor his companions could step from the door. The crowd grew in number against the door, and the police, who were on duty, were unable to get near the door. Mr. O'Brien and his party were then forced to go out, and they did so, the gentlemen before mentioned accompanying him a few steps leading from the main entrance of the Rossin house on York street to the sidewalk.

AT THE COURT HOUSE.

The George W. Leach Forgery Case Still in Progress—Jury in the Carroll Case.

The George W. Leach forgery case is still dragging its weary length along in common pleas. The state rested its case at 3:30 Wednesday afternoon, Mrs. Elizabeth Leach being the last witness. The defense thus far has called George W. Leach, Max Armstrong and Mrs. Mason Armstrong. The latter, who is Leach's sister, proved another a Tartar on the stand, and occupied the greater part of the time this forenoon. There was a constant fire of charges between the state and the defense, punctuated by frequent objections from the counsel for the defense. Mrs. Armstrong proved herself by far the saltiest witness, the defense has yet produced, and she testified that Mrs. Elizabeth Leach had signed the check, and that it was bona fide. The court adjourned at noon until 1:30 o'clock with the unyielding Mrs. Armstrong still on the stand.

The Jessie D. Carroll case came up to-morrow, and a long siege is looked for. Dozens of witnesses have been subpoenaed, nearly all of them for the state. The following panel for a struck jury of twelve, to serve in the case, was drawn today: J. K. Funderburg, Thomas Calvert, Peter Knott, J. M. Clayton, William Myers, Lemuel Hunter, O. N. Stewart, W. H. Berger, Andrew Nicholson, Henry H. Jones, John R. Hough, Samuel Hamlet, Charles P. Remsburg, Joseph A. James, M. B. Routledge and T. B. Flago.

FORTY-TWO.

In the Graduating Class This Year—The Question of an Out-of-Door Commencement.

Owing to the unusually large graduating class from the high school this coming June and the usual hot weather that a commencement brings, the question has been raised of the advisability of holding the exercises out-of-doors, in some park (?) or fair grounds. There seems to be as many different opinions as people, and just what the school board will decide upon at its next meeting cannot now be known. The committee, of which Vice President Miller is chairman, will have its meeting next Tuesday evening and report on the matter. It is from the Ninth ward and offers a new deal as a compromise, that the commencement proper, or the reading of the forty-two essays, take place in the afternoon, with an addition of music, etc. In the evening let there be an entertainment at the opera house, made up of a musical programme, the class song, prayer and the presentation of the diplomas. In this scheme the same people who want to attend both entertainments, and as the opera house would not hold as many people as the fair grounds, or some similar place, it would certainly cause greater dissatisfaction than having the entire entertainment in either the opera house or on the fair grounds at one time. It is understood that the class are a unit on having the exercises in the opera house.

A MORNING WEDDING.

Mr. John R. Ingram and Miss Phoebe E. Steele Quietly Married.

This morning at 10 o'clock a quiet wedding occurred in this city that will be a surprise to many of the friends of the contracting parties. At the hour mentioned Mr. John R. Ingram, of Cincinnati, and Miss Phoebe E. Steele were married at the residence of the bride, No. 137 West Main street, the Rev. W. C. Falconer D.D., of the First Presbyterian church, performing the ceremony in a beautiful and impressive manner. The marriage was private, only a few of the nearest relatives and the bride being present. The feebleness of her mother induced Miss Steele to make the affair as quiet as possible. Though no attempt was made at display, the marriage was nevertheless quietly elegant and deeply impressive. Until a few hours before the ceremony was performed even the near relatives of the bride did not know that the time had been fixed, although they were aware that the wedding might be expected.

A LOST MONKEY.

It Turns Up After Three Days of Starvation. Almost Scared to Death.

There has been affliction for several days in the family of Mr. Wm. Dickson, the well-known tea merchant of south Limestone street, over the loss of a pet monkey of rare species, which Mr. James Dickson brought home with him from Europe recently. The little fellow is an animal of most exemplary behavior, and is usually given the liberty of the yard. On Sunday afternoon he wandered to the back part of the place and took refuge in a tree, in the thick foliage of which he was safe from interest and from which it was found impossible to dislodge him. A party of boys living in the neighborhood joined with juvenile enthusiasm in the attempt to recapture him, and soon had the monkey so rattled and frightened that he could do nothing but cower tremulously. He finally fled, nobody knew whither, and all efforts at finding him were fruitless. Yesterday evening, Mr. James Dickson had occasion to go up into the hay-mow after hay, and there he found the poor little rascal, hidden under the hay, scared out of his wits and half-starved. The way he made a bee-line for his cage and his supper, was very entertaining.

DIVORCE WANTED.

Frank Neil Charges His Wife With Adultery.

Frank W. Neil filed his petition in the court of common pleas this (Thursday) morning, asking for divorce from his wife, Rosa Neil. The petition states that he was married to the defendant February 2, 1884, at Springfield, Ohio, and has since conducted himself as a faithful and obedient husband. That April 12, 1887, the defendant was guilty of adultery with a certain man named John Kurtz in a house in an alley back of Main street, between Spring and Foster, in this city, and defendant has at divers other times committed adultery with said Kurtz, the exact times of which the plaintiff cannot give. That said defendant, on or about April 20, refused to live with plaintiff any longer, and has ever since remained away from plaintiff and refused to live and cohabit with him, wherefore the plaintiff asks divorce and other relief.

AT THE COURT HOUSE.

The George W. Leach Forgery Case Still in Progress—Jury in the Carroll Case.

The George W. Leach forgery case is still dragging its weary length along in common pleas. The state rested its case at 3:30 Wednesday afternoon, Mrs. Elizabeth Leach being the last witness. The defense thus far has called George W. Leach, Max Armstrong and Mrs. Mason Armstrong. The latter, who is Leach's sister, proved another a Tartar on the stand, and occupied the greater part of the time this forenoon. H. Berger, Andrew Nicholson, Henry H. Jones, John R. Hough, Samuel Hamlet, Charles P. Remsburg, Joseph A. James, M. B. Routledge and T. B. Flago.

THE CITY IN PERIL.

An Alarming Scarcity of Water Staring Springfield in the Face—The Cause.

The demand for water in Springfield is a monumental chestnut; with long, gray whiskers, but it is, nevertheless, a subject of startling importance to the residents of this city. The time of the annual scarcity of water has arrived, and more than ever is the realization of the need of an abundant supply forced upon those who have considered the matter.

For several days the water in the well at the pumping station has been very low—so low, in fact, that the large compound duplex pump could not be operated, and the engineer has been compelled to employ only the small auxiliary pump. During the day the water supplied by the well

is insufficient for the demand, and recourse has to be had to that which has accumulated during the night. A representative of the Republic had a conversation yesterday afternoon with Mr. E. C. Gwyn, President of the Board of Water Works Trustees, and, speaking of the great scarcity of water the latter said:

"If a large fire should break out, demanding more than a couple of hours' supply of water, we would be utterly unable to furnish it and the city would practically be at the mercy of the flames. There is no help for us. We simply haven't the water. The stand pipe contains a little over half a million gallons (592,219)—less than a half day's supply for the city ordinarily and with the added drain made by a big fire the accumulated supply both in the stand pipe and in the well would soon be exhausted and after that the situation would be desperate. The well would have to be relied upon. This would be utterly insufficient for even the usual demand, and you can imagine how it would figure in a conflagration.

We have plenty of water, too, but we cannot use it, continuing Mr. Gwyn. The new basin is completed and is full to the brim of excellent water, but on account of the injunction which Warner & Barnett got out against us we are unable to complete the connections between the pumping station and the basin, and for all the good that basin of water will do us, even in event of the direst need, it might as well be in South America.

The basin referred to by Mr. Gwyn is in a natural bed of springs, which furnish an ample supply of the purest water. The connections between the pumping station and the basin are completed with the exception of about 125 feet of pipe. This is the part of the main connecting the pump house and the basin, which crosses Warner & Barnett's mill race, and the temporary restraining order gotten out by that firm prevents the water works trustees from laying the main across the race. It is not, however, the crossing of the race that they hope to prevent, but the using of the water in the basin, but they well know that no water can be drawn from the basin unless the main is laid across the race.

Warner & Barnett maintain that the drawing of water from the basin will so reduce the supply in Buck creek as to destroy the usefulness of their race. They seek, therefore, permanently to restrain the trustees from drawing the water from the basin until they purchase from the firm the water supply or give them good, round damages. In constructing the basin the trustees had no intention or desire to injure Warner & Barnett, but they do not want to purchase of the firm a water supply for which they have no use and they do not care to pay any damages until it has been actually shown that 125 feet, even if any, the firm will be damaged. Springfield is perfectly willing to allow Warner & Barnett (according to the petition of the trustees) any reasonable amount for damages when it has been actually shown that 125 feet, even if any, the firm will be damaged. Springfield is perfectly willing to allow Warner & Barnett (according to the petition of the trustees) any reasonable amount for damages when it has been actually shown that 125 feet, even if any, the firm will be damaged.

PRECAUTIONARY MEASURES.

This afternoon Chief Simpson, of the fire department, received the following communication:

SPRINGFIELD, O., May 19, 1887.
E. W. Simpson, Chief Fire Department.
DEAR SIR:—The water supply has got so low that in case of fire our supply would not be adequate to help you for any length of time, and I would request you to have your fire engines ready for an emergency. By order board of water works trustees.

W. G. SMITH, Secretary.

Slightly Sarcasm.

General Keifer, of Springfield, was in the city yesterday, and when word was brought to the court house concerning the discovery of natural gas, he delivered himself of a very wise speech, saying that it was in all probability nothing but sewer gas.

The nearest sewer to the paper mill is fully five squares away, and besides our sewers here in Xenia are not 181 feet under ground.—Xenia Gazette.

Assessor's Returns from Medway Precinct.

G. M. Morrison, assessor of Medway precinct, Bethel township, made his report to the county auditor this (Thursday) morning. The total value of all taxable personal property in the precinct is \$183,115, a loss of \$27,025 on last year, when it was returned at \$210,140.

The Hospital.

Mr. Frank Hagan, of the board of commissioners, said to a REPUBLIC representative this morning that the work on the hospital was progressing rapidly and favorably, and that by the first of September they hoped to have it ready for the reception of patients.
